BARRACUDA PLATFORM

AQUATIC MOBILITY FOR MILITARY VEHICLES

UNLOCK AQUATIC MOBILITY FOR GROUND-BASED MILITARY VEHICLES

The Barracuda platform by Hardline Supply revolutionizes how military vehicles navigate aquatic environments, eliminating the need for constructing bridges or deploying M3 amphibious bridge vehicles.

ROBUST AND RELIABLE

Design Constructed from a rigid inflatable structure, the Barracuda platform ensures your vehicle remains afloat while on board. Whether you need to transport a vehicle of any size or weight. Hardline can design and construct a customized Barracuda platform to meet your specific requirements.

EASY DEPLOYMENT AND OPERATION

1. Remove the Barracuda platform from its robust travel bag.
2. Roll Out the platform.
3. Install the Hardline pump and inflate the platform.
4. Set Up the ramps and motor on the included motor mount.
5. Drive your vehicle onto the platform.
6. Travel across any calm to semi-calm waterway, river, lake, etc.

With the Barracuda platform, seamlessly achieve aquatic mobility, enhancing operational efficiency and strategic flexibility. Experience the future of military logistics with Hardline Supply's Barracuda platform.
